

MUHAMMED MUBASHIR K

React Native Developer | TypeScript | JavaScript | Android | iOS

Kerala, India | muhammedmubashir720@gmail.com | +91 8089433955 | github.com/MuhammedMubashir-dev | linkedin.com/in/muhammed-mubashir-k | muhammed-mubashir-portfolio.netlify.app

Professional Summary

React Native Developer with production experience building Android and iOS features using TypeScript and JavaScript. Delivered company profiles, connection and subscription workflows, reCAPTCHA Enterprise, image handling, shareable URLs, and Branch deferred deep linking. Skilled in REST APIs, responsive UI, release troubleshooting, React.js, Next.js, and Flutter.

Technical Skills

React Native Development: React Native, TypeScript, JavaScript, Responsive UI, State Management

Mobile Platforms: Android, iOS, Branch NativeLink, Deferred Deep Linking, Release Builds

React Ecosystem: React.js, Next.js, HTML5, CSS3, Tailwind CSS, SSR, ISR

Architecture and APIs: REST APIs, Authentication, JSON, Pagination, Error Handling, Multi-Tenant Architecture

Integrations and Tools: reCAPTCHA Enterprise, Razorpay, Algolia, Git, GitHub, Postman, Figma

Additional Experience: Flutter, Dart, Arabic Localization, RTL, Google Maps, Push Notifications

Work Experience

ENKE Consulting Services LLP | Apr 2026 - Present | 5 mos

Junior Application Developer | Jul 2026 - Present | 2 mos

- Developed a React Native business networking application with company profiles, connections, subscriptions, navigation, authentication, and REST APIs.
- Implemented Branch NativeLink, deferred deep linking, shareable profile URLs, and reliable link handling across Android and iOS release flows.
- Integrated reCAPTCHA Enterprise, API-driven social platforms, image handling, and username synchronization; resolved mobile build and release issues.
- Built React.js and Next.js commerce features including multi-tenant themes, search, filters, checkout, payments, SSR, ISR, and responsive UI.

Full Stack Developer Trainee | Apr 2026 - Jul 2026 | 3 mos

- Integrated APIs and built reusable responsive components for authentication, profiles, products, orders, checkout, payments, image uploads, and pagination.

Education

Bachelor of Computer Applications (BCA) | 2023 - 2026

Priyadarshini Arts and Science College, Melmuri, Malappuram | University of Calicut

Projects

Connect App | Business Networking Application (React Native)

Built profiles, connections, subscriptions, reCAPTCHA Enterprise, image handling, shareable URLs, and Branch deferred deep links for Android and iOS.

FUNZCART / CloudPOS Web | Multi-Tenant E-Commerce Platform (Next.js)

Built 8+ Next.js theme packs with Algolia search, dynamic filters, responsive checkout, Razorpay payments, and API-driven content.

EPOSMOB | Mobile POS & Inventory Management (Flutter)

Developed Flutter billing, inventory, purchase return, packing, shipping, bilingual printing, and Arabic and RTL localization features.
